

NOTICE OF OFFICE OF MANAGEMENT AND BUDGET ACTION

Diana Hynek
Departmental Paperwork Clearance Officer
Office of the Chief Information Officer
14th and Constitution Ave. NW.
Room 6625
Washington, DC 20230

06/20/2005

In accordance with the Paperwork Reduction Act, OMB has taken the following action on your request for the extension of approval of an information collection received on 03/30/2005.

TITLE: Northwest Region Vessel Identification Requirements

AGENCY FORM NUMBER(S): None

ACTION : APPROVED WITHOUT CHANGE

OMB NO.: 0648-0355

EXPIRATION DATE: 06/30/2008

BURDEN:	RESPONSES	HOURS	COSTS(\$,000)
Previous	1,984	1,488	69
New	1,693	1,270	59
Difference	-291	-218	-10
Program Change		0	0
Adjustment		-218	-10

TERMS OF CLEARANCE: None

OMB Authorizing Official	Title
Donald R. Arbuckle	Deputy Administrator, Office of Information and Regulatory Affairs

PAPERWORK REDUCTION ACT SUBMISSION

Please read the instructions before completing this form. For additional forms or assistance in completing this form, contact your agency's Paperwork Clearance Officer. Send two copies of this form, the collection instrument to be reviewed, the supporting statement, and any additional documentation to: Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street NW, Washington, DC 20503.

19. Certification for Paperwork Reduction Act Submissions

On behalf of this Federal Agency, I certify that the collection of information encompassed by this request complies with 5 CFR 1320.9

NOTE: The text of 5 CFR 1320.9, and the related provisions of 5 CFR 1320.8(b)(3), appear at the end of the instructions. *The certification is to be made with reference to those regulatory provisions as set forth in the instructions.*

The following is a summary of the topics, regarding the proposed collection of information, that the certification covers:

- (a) It is necessary for the proper performance of agency functions;
- (b) It avoids unnecessary duplication;
- (c) It reduces burden on small entities;
- (d) It used plain, coherent, and unambiguous terminology that is understandable to respondents;
- (e) Its implementation will be consistent and compatible with current reporting and recordkeeping practices;
- (f) It indicates the retention period for recordkeeping requirements;
- (g) It informs respondents of the information called for under 5 CFR 1320.8(b)(3):
 - (i) Why the information is being collected;
 - (ii) Use of information;
 - (iii) Burden estimate;
 - (iv) Nature of response (voluntary, required for a benefit, mandatory);
 - (v) Nature and extent of confidentiality; and
 - (vi) Need to display currently valid OMB control number;
- (h) It was developed by an office that has planned and allocated resources for the efficient and effective management and use of the information to be collected (see note in Item 19 of instructions);
- (i) It uses effective and efficient statistical survey methodology; and
- (j) It makes appropriate use of information technology.

If you are unable to certify compliance with any of the provisions, identify the item below and explain the reason in Item 18 of the Supporting Statement.

**SUPPORTING STATEMENT
NORTHWEST REGION VESSEL IDENTIFICATION REQUIREMENTS
OMB CONTROL NO.: 0648-0355**

A. JUSTIFICATION

1. Explain the circumstances that make the collection of information necessary.

This submission requests renewal of Office of Management and Budget (OMB) approval for a vessel identification requirement in the Pacific Coast Groundfish Fishery.

The success of fisheries management programs depends significantly on regulatory compliance. The vessel identification requirement is essential to facilitate enforcement. The ability to link fishing or other activity to the vessel owner or operator is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (including provisions at 16 U.S.C. 1853).

Vessel identification is required by all open access and limited entry commercial vessels over 25 ft. in length in the Northwest region. Vessel identification requirements are set forth in the regulations implementing the Pacific Coast Groundfish Fisheries Management Plan at 50 CFR 660.305 (a), (b), and (c). Relevant excerpts from these regulations are attached.

2. Explain how, by whom, how frequently, and for what purpose the information will be used. If the information collected will be disseminated to the public or used to support information that will be disseminated to the public, then explain how the collection complies with all applicable Information Quality Guidelines.

A vessel's official number, must be displayed on the port and starboard sides of the deckhouse or hull, and on a weather deck. It identifies each vessel and should be visible from a distance at sea and in the air. The official number provides law enforcement personnel with a means to monitor fishing, at-sea processing, and other related activities, to ascertain whether the vessel's observed activities are in accordance with those authorized for that vessel. The identifying number is used by the National Marine Fisheries Service, the U.S. Coast Guard, and other marine agencies in issuing violations, prosecutions, and other enforcement actions. Law enforcement personnel rely on this information to assure compliance with fisheries management regulations. Vessels that qualify for particular fisheries are readily identified and gear violations are more readily prosecuted, allowing for more cost-effective enforcement. Cooperating fishermen also use the number to report suspicious activities. Regulation-compliant fishermen ultimately benefit as unauthorized and illegal fishing is deterred and more burdensome regulations are avoided.

The information collected will not be disseminated to the public; as it consists solely of identification on a vessel, it is not submitted to NMFS.

3. Describe whether, and to what extent, the collection of information involves the use of automated, electronic, mechanical, or other technological techniques or other forms of information technology.

The requirement that each vessel display an identification number on its deckhouse or hull, and its weatherdeck, does not lend itself to technology. Other means of vessel identification, e.g. transponders and vessel monitoring system units, require technology and are comparatively very expensive. No other technology appears to be less costly and still capable of providing the necessary information to support enforcement. Vessel monitoring system units have been required for the limited entry groundfish fleet since 2004 and are being proposed for portions of the open access groundfish fleet. However, a vessel identification number requirement continues to be useful for basic enforcement.

4. Describe efforts to identify duplication.

Existing Federal and State reporting requirements have been reviewed to ascertain that no duplication of information collection results from this action. There is no duplication with other collections. The U.S. Coast Guard requires the name of the vessel and hailing port be marked on its stern for documented vessels (46 CFR 67) and state-issued block numbers on the forward half of the vessel for undocumented vessels (i.e., small boats that are registered with the state) (33 CFR 173), however vessel names, ports, and block numbers may be changed, making tracking and identification of the vessel more difficult and complex. The U.S. Coast Guard also requires documented vessels to have their official identification number permanently marked on the vessel. However, this is usually done on an interior structural beam in the engine room. For efficient enforcement and accurate reporting, an identifying number is required on the outside of the vessel in large numbers by the National Marine Fisheries Service because a vessel's identification number does not change.

5. If the collection of information involves small businesses or other small entities, describe the methods used to minimize burden.

Although nearly all vessels in the respective fisheries are categorized as small businesses, the collection of information will not have a significant economic impact or burden on small businesses in terms of time and resources. Therefore, no special modifications of the requirements were considered necessary.

6. Describe the consequences to the Federal program or policy activities if the collection is not conducted or is conducted less frequently.

The National Marine Fisheries Service and the U.S. Coast Guard could not enforce the fisheries management measures if this collection were conducted less frequently. The numbers must periodically be maintained to remain legible.

7. Explain any special circumstances that require the collection to be conducted in a manner inconsistent with OMB guidelines.

This collection is consistent with the guidelines.

8. Provide a copy of the PRA Federal Register notice that solicited public comments on the information collection prior to this submission. Summarize the public comments received in response to that notice and describe the actions taken by the agency in response to those comments. Describe the efforts to consult with persons outside the agency to obtain their views on the availability of data, frequency of collection, the clarity of instructions and recordkeeping, disclosure, or reporting format (if any), and on the data elements to be recorded, disclosed, or reported.

The attached Federal Register Notice (70 FR 2616, January 14, 2005) solicited public comment on this renewal. No comments were received. Consultation outside the agency is assured by the Pacific Coast Groundfish regulatory process, set forth in the Magnuson-Stevens Fishery Conservation and Management Act and implementing regulations (Pacific Coast Groundfish Fishery Management Plan and 50 CFR 660, Subpart G). There are no issues that have not already been resolved.

9. Explain any decisions to provide payments or gifts to respondents, other than remuneration of contractors or grantees.

No payments or gifts are provided.

10. Describe any assurance of confidentiality provided to respondents and the basis for assurance in statute, regulation, or agency policy.

No confidentiality is promised - the information is on public display.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

There are no sensitive questions.

12. Provide an estimate in hours of the burden of the collection of information.

The estimated total number of vessels affected is 1,693 vessels (406 limited entry vessels and 1,287 open access vessels). This number is an overestimate because it includes vessels under 25 feet, limited entry permits not registered to a vessel, and limited entry permits that may be stacked on the same vessel. The identifying number must be displayed on the vessel in three locations and maintained in good condition. Given the adverse weather conditions and salt water, we expect each number will need to be repainted or repaired annually. The estimated time to display or otherwise affix the number at each location is 15 minutes. Estimated burden of total annual response time: 1,693 vessels x 3 locations x 0.25 hours = 1,270 hours.

Labor costs probably range between \$10 and \$15 per hour, producing an annualized cost to respondents of the time burden between \$12,700 and \$19,050.

13. Provide an estimate of the total annual cost burden to the respondents or record-keepers resulting from the collection (excluding the value of the burden hours in #12 above).

The cost to fishermen is minimal. Materials needed are paint and paintbrush, and possibly a stencil. At an estimated cost of \$35 per vessel, the total cost burden is 1,693 vessels x \$35 = \$59,255. Given the adverse weather conditions and salt water, we expect each number will need to be repainted or repaired annually.

14. Provide estimates of annualized cost to the Federal government.

None.

15. Explain the reasons for any program changes or adjustments reported in Items 13 or 14 of the OMB 83-I.

The burden hours have been adjusted due to a re-estimate of the number of current vessels affected by the requirement. The number of vessels has been reduced, in part, due to the buyback of groundfish limited entry trawl vessels and permits. This in turn affected total estimated cost to the public.

16. For collections whose results will be published, outline the plans for tabulation and publication.

No results are published.

17. If seeking approval to not display the expiration date for OMB approval of the information collection, explain the reasons why display would be inappropriate.

Not applicable.

18. Explain each exception to the certification statement identified in Item 19 of the OMB 83-I.

There are no exceptions.

B. COLLECTIONS OF INFORMATION EMPLOYING STATISTICAL METHODS

This collection does not employ statistical methods.

§ 660.305

§ 660.335(a)(2). Owners of vessels that are not registered to limited entry permits and owners of vessels registered to limited entry permits that did not receive instructions by mail are responsible for contacting NMFS OLE during business hours at least 3 days before the declaration is required to obtain information needed to make declaration reports. NMFS OLE must be contacted during business hours (Monday through Friday between 0800 and 1700 Pacific Time).

(6) *A declaration report will be valid until* a declaration report to revise the existing gear declaration or a declaration report to cancel fishing in a conservation area is received by NMFS OLE. During the period that a vessel has a valid declaration report on file with NMFS, it cannot fish with a gear other than a gear type that is within the gear category (50 CFR 660.303(d)(5)) declared by the vessel. After a declaration report to cancel fishing in the RCA is received, that vessel must not fish in a conservation area until another declaration report for fishing by that vessel in a conservation area is received by NMFS.

[68 FR 62381, Nov. 4, 2003, as amended at 69 FR 11124, Mar. 9, 2004; 69 FR 31755, June 7, 2004; 69 FR 42348, July 15, 2004]

§ 660.305 Vessel identification.

(a) *Display.* The operator of a vessel that is over 25 ft (7.6 m) in length and is engaged in commercial fishing for groundfish must display the vessel's official number on the port and starboard sides of the deckhouse or hull, and on a weather deck so as to be visible from above. The number must contrast with the background and be in block Arabic numerals at least 18 inches (45.7 cm) high for vessels over 65 ft (19.8 m) long and at least 10 inches (25.4 cm) high for vessels between 25 and 65 ft (7.6 and 19.8 m) in length. The length of a vessel for purposes of this section is the length set forth in USCG records or in state records, if no USCG record exists.

(b) *Maintenance of numbers.* The operator of a vessel engaged in commercial fishing for groundfish must keep the identifying markings required by paragraph (a) of this section clearly legible and in good repair, and must ensure that no part of the vessel, its rigging,

50 CFR Ch. VI (10–1–04 Edition)

or its fishing gear obstructs the view of the official number from an enforcement vessel or aircraft.

(c) *Commercial passenger vessels.* This section does not apply to vessels carrying fishing parties on a per-capita basis or by charter.

§ 660.306 Prohibitions.

In addition to the general prohibitions specified in § 600.725 of this chapter, it is unlawful for any person to:

(a) *General.* (1) Sell, offer to sell, or purchase any groundfish taken in the course of recreational groundfish fishing.

(2) Retain any prohibited species (defined in § 660.302 and restricted in § 660.370(e)) caught by means of fishing gear authorized under this subpart or unless authorized by part 600 of this chapter. Prohibited species must be returned to the sea as soon as practicable with a minimum of injury when caught and brought on board.

(3) Falsify or fail to affix and maintain vessel and gear markings as required by § 660.305 or § 660.310.

(4) Fish for groundfish in violation of any terms or conditions attached to an EFP under § 600.745 of this chapter or § 660.350.

(5) Fish for groundfish using gear not authorized under § 660.310 or in violation of any terms or conditions attached to an EFP under § 660.350 or part 600 of this chapter.

(6) Take and retain, possess, or land more groundfish than specified under §§ 660.370 through 660.373, or under an EFP issued under § 660.350 or part 600 of this chapter.

(7) Fail to sort, prior to the first weighing after offloading, those groundfish species or species groups for which there is a trip limit, size limit, quota, or harvest guideline, if the vessel fished or landed in an area during a time when such trip limit, size limit, harvest guideline or quota applied.

(8) Possess, deploy, haul, or carry on-board a fishing vessel subject to this subpart a set net, trap or pot, longline, or commercial vertical hook-and-line that is not in compliance with the gear restrictions in § 660.310, unless such gear is the gear of another vessel that

(B) minimize the mortality of bycatch which cannot be avoided;

(12) assess the type and amount of fish caught and released alive during recreational fishing under catch and release fishery management programs and the mortality of such fish, and include conservation and management measures that, to the extent practicable, minimize mortality and ensure the extended survival of such fish;

(13) include a description of the commercial, recreational, and charter fishing sectors which participate in the fishery and, to the extent practicable, quantify trends in landings of the managed fishery resource by the commercial, recreational, and charter fishing sectors; and

(14) to the extent that rebuilding plans or other conservation and management measures which reduce the overall harvest in a fishery are necessary, allocate any harvest restrictions or recovery benefits fairly and equitably among the commercial, recreational, and charter fishing sectors in the fishery.

97-453, 99-659, 101-627, 102-251, 104-297

(b) DISCRETIONARY PROVISIONS.--Any fishery management plan which is prepared by any Council, or by the Secretary, with respect to any fishery, may--

(1) require a permit to be obtained from, and fees to be paid to, the Secretary, with respect to--

(A) any fishing vessel of the United States fishing, or wishing to fish, in the exclusive economic zone [or special areas,]* or for anadromous species or Continental Shelf fishery resources beyond such zone [or areas]*;

(B) the operator of any such vessel; or

(C) any United States fish processor who first receives fish that are subject to the plan;

(2) designate zones where, and periods when, fishing shall be limited, or shall not be permitted, or shall be permitted only by specified types of fishing vessels or with specified types and quantities of fishing gear;

(3) establish specified limitations which are necessary and appropriate for the conservation and management of the fishery on the--

(A) catch of fish (based on area, species, size, number, weight, sex, bycatch, total biomass, or other factors);

(B) sale of fish caught during commercial, recreational, or charter fishing, consistent with any applicable Federal and State safety and quality requirements; and

(C) transshipment or transportation of fish or fish products under permits issued pursuant to section 204;

(4) prohibit, limit, condition, or require the use of specified types and quantities of fishing gear, fishing vessels, or equipment for such vessels, including devices which may be required to facilitate enforcement of the provisions of this Act;

(5) incorporate (consistent with the national standards, the other provisions of this Act, and any other applicable law) the relevant fishery conservation and management measures of the coastal States nearest to the fishery;

(6) establish a limited access system for the fishery in order to achieve optimum yield if, in developing such system, the Council and the Secretary take into account--

(A) present participation in the fishery,

(B) historical fishing practices in, and dependence on, the fishery,

(C) the economics of the fishery,

(D) the capability of fishing vessels used in the fishery to engage in other fisheries,

(E) the cultural and social framework relevant to the fishery and any affected fishing communities, and

(F) any other relevant considerations;

(7) require fish processors who first receive fish that are subject to the plan to submit data (other than economic data) which are necessary for the conservation and management of the fishery;

(8) require that one or more observers be carried on board a vessel of the United States engaged in fishing for species that are subject to the plan, for the purpose of collecting data necessary for the conservation and management of the fishery; except that such a vessel shall not be required to carry an observer on board if the facilities of the vessel for the quartering of an observer, or for carrying out observer functions, are so inadequate or unsafe that the health or safety of the observer or the safe operation of the vessel would be jeopardized;

(9) assess and specify the effect which the conservation and management measures of the plan will have on the stocks of naturally spawning anadromous fish in the region;

(10) include, consistent with the other provisions of this Act, conservation and management measures that provide harvest incentives for participants within each gear group to employ fishing practices that result in lower levels of bycatch or in lower levels of the mortality of bycatch;

(11) reserve a portion of the allowable biological catch of the fishery for use in scientific research; and

(12) prescribe such other measures, requirements, or conditions and restrictions as are determined to be necessary and appropriate for the conservation and management of the fishery.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 011105D]

Proposed Information Collection; Comment Request; Northwest Region Vessel Identification Requirements

AGENCY: National Oceanic and Atmospheric Administration (NOAA).

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3506 (c)(2)(A)).

DATES: Written comments must be submitted on or before March 15, 2005.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Jamie Goen, NMFS, 7600 Sand Point Way NE, Seattle, WA 98115 (phone 206-526-4646).

SUPPLEMENTARY INFORMATION:

I. Abstract

The success of fisheries management programs depends significantly on regulatory compliance. The vessel identification requirement is essential to facilitate enforcement. The ability to link fishing or other activity to the vessel owner or operator is crucial to enforcement of regulations issued under the authority of the Magnuson-Stevens Fishery Conservation and Management Act. A vessel's official number is required to be displayed on the port and starboard sides of the deckhouse or hull, and on a weather deck. It identifies each vessel and should be visible at distances at sea and in the air. Vessels that qualify for particular fisheries are readily

identified, gear violations are more readily prosecuted, and this allows for more cost-effective enforcement. Cooperating fishermen also use the number to report suspicious activities that they observe. Regulation-compliant fishermen ultimately benefit as unauthorized and illegal fishing is deterred and more burdensome regulations are avoided.

II. Method of Collection

Fishing vessel owners physically mark vessel with identification numbers in three locations per vessel. No information is collected.

III. Data

OMB Number: 0648-0355.

Form Number: None.

Type of Review: Regular submission.

Affected Public: Business or other for-profit organizations (fishermen in the Open Access and Limited Entry Pacific Coast Groundfish Fishery).

Estimated Number of Respondents: 1,693.

Estimated Time Per Response: 45 minutes (15 minutes per marking).

Estimated Total Annual Burden Hours: 1,270 hours.

Estimated Total Annual Cost to Public: \$59,255 (\$35 per vessel).

IV. Request for Comments

Comments are invited on: (a) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: January 7, 2005.

Gwellnar Banks,

Management Analyst, Office of the Chief Information Officer.

SUPPLEMENTARY INFORMATION:

I. Abstract

Executive Order 13158 directs the Department of Commerce and the Department of the Interior to work with partners to strengthen the protection of U.S. ocean and coastal resources by developing a national system of marine protected areas. The Departments of Commerce and the Interior plan to work closely with state, territorial, local, and tribal governments, as well as other stakeholders, to identify and inventory the Nation's existing marine protected areas. Toward this end, the National Oceanic and Atmospheric Administration (NOAA) and the Department of the Interior (DOI) have created a dataform, available on a password protected website, to be used as a survey tool to collect and analyze information on these existing sites. This survey will allow NOAA and DOI to
